AORecon Course—Principles of Total Hip and Knee Arthroplasty

20–21 September, 2019
Ljubljana, Slovenia

CHAIRPERSON

Simon Kovač
(Valdolta, Slovenia)

Course Venue

Radisson Blu Plaza Hotel Ljubljana

Course fee

EUR 450

Course goal

The course teaches fundamental principles and current concepts in the treatment of patients with a need for primary arthroplasty in the hip and knee.

Target participants

This course is targeted at newly certified orthopedic surgeons and advanced orthopedic surgical trainees.

Course description

This course is modular in structure and highly interactive. Short, evidence-based lectures cover the key information required. Moderated case discussions in small groups will expand on each topic and help participants to develop decision-making and surgical

management skills. Participants will practice templating and have the opportunity to share their experience with peers and international faculty. All factors related to achieving the best possible outcomes in primary arthroplasty will be covered.

Information

For more information please click here:

Learning objectives

Participants will be able to:

- Describe a systematic assessment including clinical evaluation
- Identify patient's reconstructive surgery needs
- Adopt a patient-centered approach
- Discuss the management of early and late problems or complications
- Anticipate, recognize, and stratify potential complications
- Apply best practice to optimize and document patient outcomes
- Communicate and facilitate a multidisciplinary team-based approach
- Describe and discuss safe and effective procedures for primary arthroplasty
